

CareerTrac:

NIEHS Trainee Tracking System for Training Grants

Helena L. Kennedy
October 23, 2012

Outline

- What is CareerTrac
 - System History
 - System Goals
 - System Principles
 - Data Sources
- System Highlights
 - Data Entry Screens
 - Reports
- Questions

History of Career Trac

- **2003 – 2008** Fogarty International Center developed and used system
- **2008** – NIEHS began modifying FIC’s CareerTrac for its own use with institutional and individual trainees
- **2011** – NIEHS deployed an initial system that included two training mechanisms: the NRSA Institutional Research Training Grants (T32) and Individual Postdoctoral Fellowships (F32)
- **2011-2012** – Developed the Superfund “tenant” in Careertrac. Imported 1400+ trainees
- **Current activities** –
 - Testing the system; Rolling out to T32 Program,
 - Rolling out to Superfund
 - Working with Intramural Division at NIEHS
 - Considering Pilot Projects with other Institutes and Centers

Superfund Tenant

- NIEHS, MDB and Open Intelligence have collaborated to import over 1400 trainees into CareerTrac
- New IDs have been created for PIs and PI Administrators
- PIs and PIAs can now ADD TRAINEES directly in the system (using the add trainee) button
- Please add information!
 - Yellow fields = “required”
 - Key section: “In-Training Experience”
 - Key section: “Accomplishments”
- No direct trainee access (*yet?*)

CareerTrac Goals

- Provide a structured database that tells us (NIEHS and Grantees):
 - What have Trainees accomplished based on the training received?
- Improve Access to Existing Data
 - Web-based access
 - Institutional training grant (T32) directors must track trainees for 10+ years. *.pdf data not searchable.
- Automate trainee tracking for PIs
 - Structured, searchable, database that retains information from year to year
- Automate key information for reports

Key CareerTrac Principles

- Role Based Access
 - PI only sees trainees in their program
 - Program Officers can see everything (QVR/eSPA model)
- Minimize work for PIs & provide incentives for use
- Wherever possible, extract data from existing sources
 - IMPAC II (X-Train); PubMed/SPIRES; etc.
- Do not duplicate existing resources
- Retain trainee information beyond the life of the grant
- Balance flexibility with structured data

CareerTrac Data Sources

CareerTrac is available at:
<https://careertrac.niehs.nih.gov>

Warning Notice

This is a U.S. Government computer system, which may be accessed and used only for authorized Government business by authorized personnel. Unauthorized access or use of this computer system may subject violators to criminal, civil, and/or administrative action.

All information on this computer system may be intercepted, recorded, read, copied, and disclosed by and to authorized personnel for official purposes, including criminal investigations. Such information includes sensitive data encrypted to comply with confidentiality and privacy requirements. Access or use of this computer system by any person, whether authorized or unauthorized, constitutes consent to these terms. There is no right of privacy in this system.

Respondent Burden Statement

Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to:

NIH
Project Clearance Branch
6705 Rockledge Drive, MSC 7974
Bethesda, MD 20892-7974
ATTN: PRA 0925-0568

Do not return the completed form to this address.

Career Highlights/Leadership [X]

Career Highlight Example:

The purpose of this accomplishment category is to allow CareerTrac users to provide a narrative account of how training has directly impacted a Trainee's career or leadership potential.

For example, Jane Doe, Ph.D., participant in the XXX research training program, received a competitive "Best Paper" award at the International Conference on _____. Her training with _____ had a direct influence on the direction of the research describe in the paper.

Other examples might include:

- Served as member or Chairperson of a scientific panel convened by a the National Academy of Sciences, the Instiutte of Medicine, or other government entity
- Received an award
- Led revisions of clinical guidelines, etc.
